

About trekhops

TrekHops derives from the word Trek which means 'Journey' and Hops, meaning 'Jump.' The name reflects the nature of the brand, which is a live chat-based online travel booking platform. The platform comes with live assistant chatbot helping you to book tickets without navigating and scrolling through the website. The live assistant provides you with tickets and fares that the user looks for, such as time of flights, prices, airlines, and in-flight services. Powered by AI, the live assistant understands the demand and needs of the user to them the most suitable airfares and special offers without any hassle.

Our Process

Objective

TrekHops is on a mission to ensure the affordability of travel for people from all walks of life. We want to create interactive listings and help the users with simplified and easy ticket booking. Ensuring trips at discounted rates with instant reservations through live assistant is how TrekHops looks to build and engage with its customers.

Color

#555DFD Dodger Blue

#FD690F Pumpkin

The development of the brand style for TrekHops consists of two base colors. One is the Dodger Blue that comes from Blue color shades. The second one is Pumpkin from the Orange family.

Dodger Blue signifies trust, accuracy, and realism. The frequency of yellow is stretched, causing it to have one of the most profound mental implications.
